I love your network! Thanks!

Denise – via www.escapesTV.com

This is by far the best station I have ever come across. Having this on simply makes me feel amazingly happy, peaceful and totally relaxed. I wish there were a radio station with this awesome music playing 24/7. And the scenery is awesome. THANK YOU!; It occurred to me that this should be a station available to people in hospitals, hospice facilities, and so many more places where people are in stressful situations. Beautiful!

An innovative, inspiring new approach to media connection with the public. Keep up this excellent programming. Thank You.

William Williams – Perrysburg, OH

I recently discovered your program on Buckeye Cable and am delighted. I enjoy it at home instead of the radio. We are trying to get it in our cancer center for the waiting room. Do you have online streaming? Thanks and keep up the superb quality of photography and music.

Joyce Vernier – Sylvania, OH

I would just like to say first that my wife and I LOVE your eScapes channel. The music is so relaxing and the videos are amazing and breath-taking. I never even knew about this well, thanks for your time and thanks for your relaxing channel. Your hearing from your newest fans :) channel until I was flipping around and stumbled upon it. Now my wife and I are always watching/listening. It is really addictive!! Each time we watch we see new and interesting video. Have a great day!!!

Just want to let you know I think eScapes is a great relaxing way to unwind to beautiful scenes and soothing music. A great way to feel like you are on a vacation and escaping. Thanks for the beautiful photography and music!! Keep up the good work! Love it !

Priceless!

We just love eScapes, a wonderful idea.

James Buerk – Toledo, OH

I never write to any TV or radio stations, but in your case, I must make an exception. eScapes is one of the best ideas for a TV channel that I've ever seen! I pay Comcast \$260/month for a fully loaded HD cable package and I find myself spending more time on eScapes than on anything I have on cable. I've been a smooth jazz aficionado since the early 1970's and I have to say your choice of music, combined with superb on-air personalities and beautiful vistas is just about impossible to turn off. I've been telling all my friends about your channel and everyone wants it. When I have friends over, I keep your channel on throughout the house and get nothing but rave reviews. They're all asking if your channel will appear on Comcast in the Portland, Oregon and Vancouver, Washington area. I hope one day it will. Keep up the great work and you know where my big satellite dish will be tuned! Best,

Jerry Carathers – Portland, OR

Great channel. Please continue. Visited sick friend who had it on 24/7. Said it's the only decent channel on cable.

Massillon Cable Survey – Female, 46-56 years

What a great idea for a television channel. I love it. Just by looking at the pictures, I already feel relaxed. Kind of like a mini vacation for workaholics.

Amy Flannery – via Facebook

Love everything you do! I guess I could go on and on. Thanks!

Barbara Garrett – via www.escapesTV.com

Since our cable company added eScapes to the lineup, that's what I have on the TV all day long for background music/scenery. No more plain XM! Obviously I'm loving it. Thanks again for a wonderful TV choice.

I really enjoy the eScapes network! We even have it on sometimes at night to sleep to. We have get-togethers with family and friends around the holidays and usually have a local radio station on in the background that plays holiday music 24/7...from Thanksgiving until New Year's Day. This year I thought we'd have eScapes on instead, not only for the audio, but for the visual effect as well.

Denise - via www.escapesTV.com

I absolutely love your station! I watch it on Buckeye Cable and it's probably my second most watched program. Sports programming would be #1, but even that is quite often just background noise for whatever I'm doing. If my TV isn't on sports, it's on eScapes. I truly hope things are going well for you and you are adding to the cable systems that use you.

Willie Geiser – Holland, OH

First of all, I love this program. It is relaxing, enjoyable music and a way of seeing the world.

Linda Wolf – Sylvania, OH

WOW! I repeat WOW!!!

Barry Holden – Ontario, Canada

The eScapes Network is my new favorite channel. It's a vacation in my own home.

Frank Colarusso – via Facebook

Please add it to your line-up permanently. It is so relaxing-the music & scenes! I sometimes leave it on all day as background music while working. What a hit!!!!

Massillon Cable Survey – Male, 56+ years

I just wanted to say thank you for such a great program. I love to watch all the beautiful scenery & listen to the relaxing music.

Juliette – via www.escapesTV.com

I just found you online, can't believe I haven't found you before this. This is 200% me, the music is what I love and I had to get XM to get this type of music. The photos are so perfect, eScapes is perfect for me. This type of music is so soothing.

Mark Grover – Monmouth, IL

We both like it. It's soothing to watch and listen to. Half the time there's nothing but cr@p on TV so it's refreshing to watch/listen to.

Massillon Cable Survey – Male, 46-55 years

Hi. I'm emailing you all the way from the obscure central valley, Ca. This is amazing!! I love it when I can turn on the TV and listen to music. Thanks.

What good fortune I had to have read the feature article in a recent "Toledo Blade"....I may, otherwise, have never found your delightful program! Thank you for your excellent programming.

Chuck Riley – Toledo, OH

I turn eScapes on when I want something in the background or just want to relax. The scenery is great.

Massillon Cable Survey – Female, 56+ years

Massillon Cable Survey – Male, 36-45 years

Your station is an excellent change of pace station rather than most of the inane programming on other channels. I like the smooth jazz and pastoral videos. Thank you for "listening."

Walter Van Zee – Fresno, CA

I wish I could get it on my old digital TV's too like I do on my HD TV. Then I could have it in every room in the house!!

Driving to a friend's home tonight to watch/listen to eScapes. It's a shame I have to leave home to enjoy this wonderful channel as Charter doesn't offer this amazing footage. May have to switch carriers eventually. We shall see who offers this first in the Monroe viewing area.

There are only 213 people that like the eScapes channel, what's up with that yall. Why haven't everyone seen this channel. They are missing out on a lot. I'm trying to get the word out to everyone I know. I tell them how awesome this channel is. I can't go to sleep without it now. Before I had to have total darkness before I went to bed, but now, I must have my eScapes channel on. It soothes me.

Your "After Dark" show is nice! Kick your shoes off and have a great day!

Brenda Gnias, Massillon, OH

There is no single description or word to define this product or service. Indeed, there are nearly as many definitions as there are people – and, therein, lies the magic of eScapes. For some...or one, it is: A compilation of beautiful pictures of far off places, seen on a television screen, a computer screen, or any other screen designed to pluck pictures from the air; The sound of those places, sometimes with a narrative of what is being seen; The sound of music, skillfully performed and matched with pictures to excite or calm the mind; A sound and picture gallery to sooth the soul and calm the clatter and clutter of everyday life; A fresh background to one's chores and travel through a day or a few moments of life; A media framework to gently attract one's attention to a more important message; A spark to ignite productive pondering, resting and imagining a different and better tomorrow; A fresh media breeze of sound and pictures to pique one's imagination; A media experience absent of violence, pressure, or demands; A media product for only watching, only listening, or embracing both; A calm media experience that is simply unique; A media experience that prompts the mind to want for more. Yes, the definition of this product really must reside in the minds of each who chose to partake of the opportunity to sample it, savor it, and return to it.

I want to thank eScapes for being there for me during a healing time in my life. One year ago, I was diagnosed with lung cancer. I had nine weeks of sleepless nights after surgery. You were my companion every night and aided in my recovery. I am now a one year survivor!

I enjoy watching eScapes on 33-3 in Kingsburg CA. I watch 4-5 times a week. Your light jazz and soft rock along with beautiful landscapes is very relaxing. I'd like a little more soft rock (James Taylor, Seals and Croft etc.), that should date me.

Michael, Fresno, CA

eScapes Network, after the technical arrangements, works perfect for me (Hotbird 13°E). The video quality is perfect, and there is no problem with the sound anymore. Thank you for transmitting this awesome channel in Europe. I hope you continue to create great and even greater program.

I happened to stumble across your network one afternoon and am hooked on it! What a terrific thing you've got going! It's so relaxing to have on at night just for the music alone, but then to see the great video of areas is amazing! Keep it up! Love it!

Christopher Cromwell, Lexington, KY

We appreciate eScapes so very much. The pictures are just so beautiful, and they feed the soul. Most of the music we don't care for since we are classical music lovers, but I do enjoy the new age music on Spa. It's so relaxing and meditative. Usually we just press mute and enjoy the wonderful photography. Thank you for being there.

Ted & Myra Lynn Ross, via Email

We just love your eScapes. Great music and wonderful places. I feel like we are on vacation sometimes. Also very relaxing. We listen to this several times a day. Great choices. Thank you.

Gloria, via website on-line submission

Hello, your programme is a very interesting idea: beautiful slowly changing pictures of high quality (HD). Sometimes the music is too much "easy listening". "After Dark" seems to be my favorite part. I liked the nightly Chicago sequence including music of yesterday very much. I receive you via Hot Bird 13°E. Will your channel be freely available in the future? Good to know that are still Americans who are creating friends by such service instead creating "not-friends" by spying. Kind regards, Bernd from Berlin

Brend Waniewski, Berlin, Germany

My wife and I are hooked on eScapes. We are retired and have eScapes tuned in much of the day. My request is that the description of the on-air location be displayed either permanently or more frequently.
